## Matthew DePerno Announces Endorsement from Captain Seth Keshel

Kalamazoo, MI – Candidate Matthew DePerno announces Captain Seth Keshel's endorsement of Mr. DePerno's candidacy for Michigan Attorney General. Seth Keshel has made the following statement:

Michigan has always been a state of leadership backed by its determined and hard-working folks. The people of the Motor City Capital paved the way for the automotive industry during the Industrial Revolution, and to this day continue to lead that same industry in automotive technology. Michigan is also among the country's top leaders in agriculture with its production of over 300 commodities, ranking second in the nation for most diverse agriculture industry. This success is due in part to the state's steadfast and studious communities working together for such triumphant achievements.

Unfortunately, Michigan has been infiltrated with rampant corruption throughout the past several decades, overshadowing the amazing accomplishments of Michiganders who work so diligently to cultivate prosperity, optimism, and well-being throughout the mitten state. Michigan is in desperate need to reclaim law and order through someone who will fight for its citizens which is why I am endorsing Matthew DePerno for Michigan's next Attorney General. Mr. DePerno will aggressively challenge these issues and ensure all Michiganders are justly represented under the confines of the law. Mr. DePerno is a true patriot who will end corruption, protect both state sovereignty and individual rights to health freedom, restore the right to free, fair, and secure elections, and uphold the integrity of Americans' Second Amendment right to bear arms. Matthew DePerno has my full support and confidence as Michigan's next Attorney General.

Matthew DePerno made the following statement:

As a former U.S. Army Captain, Seth Keshel has dedicated his life to fighting for the constitutional rights of each and every American. Although retired from his military service, Captain Keshel continues his fight and support for the American people, having spent the last 11 months seeking the truth behind the November 3, 2020 election night events. I am honored to have Captain Keshel's endorsement and join him in the fight to restore the constitutional republic for our fellow Americans.
